INTERIOR HALLWAY SYSTEMS

DBCI

DBCI's Self-Storage Solutions Include:

Maximized Capacity Solution

- Summit Series (Mezzanine)

Wine Storage Solution

- Vineyard Series

Self-Storage Doors

- 650 Series
- 690 Series
- Wind Load Door
- 1900 Series
- Boat & RV Doors
- 651, 691, 1950 Series
- Insulated Doors

Hallway Systems

- Swing Door 300 Series (flush and corrugated)
- Swing Door 500 Series (flush and corrugated)
- Header Panel
- Filler Panel
- Corawall
- Securawall

Soffit Systems

- Hall Soffit (three-piece)
- Light Soffit
- Entry Soffit
- Flush Ceiling Soffit

Security Solutions

- Mesh Security Wire
- Burglar Security Bars

Safeguards

- Kickplates (Galvanized or Diamond Plates)
- Cornerguards (Galvanized or Diamond Plates)
- Linerwalls (Galvanized or Diamond Plates)

Structural Framing

- Exterior Pier & Header System

DBCI's frames and panels are designed to ensure efficiency and durability. The roll-up frame is a non-load bearing interior hallway jamb used for attaching DBCI roll-up doors. The flush header panel attractively closes the gap between the top of the roll-up door and the top of the hallway system. Additionally, filler panels are an economical solution to close the gap between the door and the roof or ceiling.

Integrity. Partnership. Quality.

Roll-Up Frames

This strong, flush 20-gauge frame is used in both corrugated and flush hallway systems. The frames include base plates, back plates and top channels.

- 20-gauge back plate for mounting header/filler panel and roll-up door bracket
- 20-gauge base plate that mounts roll-up frame to door
- Press break construction for various sizes
- Available in glossy white or Galvalume®
- #8 x 1/2" glossy white self-drilling fasteners

Flush Header Panel

The flush header panel with roll-up frames creates a clean flush hallway. The glossy white flush header panel reflects light, providing a brighter interior.

- 20-gauge panel
- For interior hallway systems
- Single-piece construction
- Glossy white paint finish
- #8 x 1/2" glossy white self-drilling fasteners

Filler Panel

Filler panels are used in interior and exterior applications. The panels are available in matching or accenting colors.

- 26-gauge panel, support channel and angles
- Framed in at the sides, top and bottom with matching support channels
- Angles can be manufactured to match the color of the roll-up door or a contrasting color
- #8 x 1/2" self-drilling fasteners available
