## INTERIOR HALLWAY SYSTEMS

DBCI

### DBCI's Self-Storage Solutions Include:

#### Maximized Capacity Solution

- Summit Series (Mezzanine)

#### Wine Storage Solution

- Vineyard Series

#### Self-Storage Doors

- 650 Series
- 690 Series
- Wind Load Door
- 1900 Series
- Boat & RV Doors
- 651, 691, 1950 Series
- Insulated Doors

#### Hallway Systems

- Swing Door 300 Series (flush and corrugated)
- Swing Door 500 Series (flush and corrugated)
- Header Panel
- Filler Panel
- Corawall
- Securawall

#### Soffit Systems

- Hall Soffit (three-piece)
- Light Soffit
- Entry Soffit
- Flush Ceiling Soffit

#### Security Solutions

- Mesh Security Wire
- Burglar Security Bars

#### Safeguards

- Kickplates (Galvanized or Diamond Plates)
- Cornerguards (Galvanized or Diamond Plates)
- Linerwalls (Galvanized or Diamond Plates)

#### Structural Framing

- Exterior Pier & Header System

DBCI's security options create a cost-effective means of protecting your self-storage facilities. The burglar bars provide security at the top of hallway systems or above unit partitions. The wire mesh is used at the top of storage units and allows light and air flow inside of the interior hallway systems.

Integrity. Partnership. Quality.

## Mesh

Mesh can be installed either horizontally above or vertically between units. The galvanized mesh is attached to the top edges of the units by mesh angles. The mesh should be used in storage units with overhead gaps that might allow entry.

- 2" x 2" 16-gauge welded wire
- 2" x 2" Galvalume® mesh angles
- #8 x 1/2" self-drilling fasteners
- 26-gauge special wire mesh clips

## Burglar Bars

The burglar bars are galvanized hat channels that provide security for the space above the top of the hallway system or above the unit partition. The burglar bar attaches horizontally to the existing support columns at 8" increments to provide additional security.

- 2 3/4"-wide galvanized channels
- Self-drilling fasteners
- Available in glossy white or acrylic-coated Galvalume®
